

Heeft u geen internet op mobiel, controleer dan de APN instellingen.

Vul als APN naam "internet.mvno.mobi" in.

Zet bij gebruikersnaam "mvno" en ook bij wachtwoord "mvno"

In Android vind u dit bij 'Instellingen' :

Bij de iPhone vind u dit bij 'instellingen' :

The image displays four sequential screenshots of an iPhone's settings application, illustrating the navigation path to mobile data settings. Red circles highlight the specific menu items being navigated to in each step.

- Screenshot 1 (Instellingen):** Shows the main settings menu. The 'Mobiel netwerk' option is circled in red.
- Screenshot 2 (Mobiel netwerk):** Shows the mobile network settings. The 'Opties mobiele data' option is circled in red.
- Screenshot 3 (Mobiele data):** Shows the mobile data options. The 'APN' field, which contains the value 'internet.mvno.mobi', is circled in red.
- Screenshot 4 (Mobieledatatenetwerk):** Shows the mobile data network configuration screen. The 'Mobieledatatenetwerk' option is circled in red.
